

5.0 ISSF ANTI - DOPING RULES

5.1 INTRODUCTION

5.1.1 Principles

5.1.1.1 The ISSF Anti-Doping Rules are based on the World Anti-Doping Code (the "Code" which can be obtained from the World Anti-Doping Agency - WADA).

5.1.1.2 In all international shooting sport competitions governed by the ISSF General Regulations according to Article 3.1.0 (hereinafter collectively referred to as "ISSF Competitions" the ISSF will apply the Code as specified and as amended from time to time, unless specified otherwise in these Rules.

5.1.2 OBLIGATIONS OF THE SHOOTERS

5.1.2.1 Every person registering for or participating in ISSF Competitions accepts to submit himself/herself to giving samples and to medical, clinical or biological examinations related to the Anti-Doping Rules during these competitions, during training sessions and out of competition.

5.1.2.2 Every shooter must disclose at registration with the ISSF any positive test result for which he/she has been sanctioned. For any failure, the ISSF Executive Committee will decide on a sanction.

5.1.3 ISSF ANTI-DOPING Committee

5.1.3.1 The Anti-Doping Committee of the ISSF consists of:

5.1.3.1.1 the chairman of the ISSF Medical Committee or his representative;

5.1.3.1.2 one medical doctor of the Medical Committee appointed by the Executive Committee;

5.1.3.1.3 the President of the ISSF or one member from the ISSF Executive Committee or the ISSF Administrative Council appointed by the President;

5.1.3.1.4 the Secretary General of the ISSF.

5.1.3.2 The Anti-Doping Committee may call upon experts to advise them regarding scientific or organizational problems.

5.1.3.3 The Anti-Doping Committee is responsible for the preparation, supervision and correct execution of the doping tests.

5.1.4 ORGANIZATION OF DOPING TESTS

5.1.4.1 The ISSF Anti-Doping Committee may appoint a supervisor who will attend the Anti-Doping tests that are conducted during ISSF competitions. His/her role is to represent the ISSF and to observe that the tests are conducted correctly.

5.1.4.2 In the absence of an appointed supervisor, the ISSF Technical Delegate of the competition or championships may serve as the supervisor or may appoint any competition jury member to fulfill this role.

5.1.4.3 The Organizing Committee of each competition is responsible for providing the equipment and adequate rooms for the testing station. Two (2) adjoining rooms, that can be securely locked, are necessary: one to be used as a waiting room, and the other equipped with a table, chairs and a refrigerator that can be locked. A separate toilet must be available in the close vicinity of the test station. In the waiting room, a varied selection of sealed drinks for the shooters must be provided. At the discretion of the supervisor and/or his representative, direct observation must be used with a same sex observer present.

5.1.4.4 The doping test station must be marked clearly with signs.

5.2 DEFINITION OF DOPING

Doping is defined as the occurrence of one or more of the Anti-Doping Rule violations set forth in 5.3.1 through 5.3.8 of the Rules.

5.3 ANTI-DOPING RULE VIOLATIONS

The following constitute Anti-Doping Rule violations.

5.3.1 The presence of a Prohibited Substance or its Metabolites or Markers in a Shooter's bodily Specimen

5.3.1.1 It is each Shooter's personal duty to ensure that no Prohibited Substance enters his or her body. Shooters are responsible for any Prohibited Substance or its Metabolites or Markers found to be present in their bodily Specimens. Accordingly, it is not necessary that intent, fault, negligence or knowing Use on the Shooter's part be demonstrated in order to establish an anti-doping violation under 5.3.1.

5.3.1.2 Excepting those substances for which a quantitative reporting threshold is specifically identified in the Prohibited List, the detected presence of any quantity of a Prohibited Substance or its Metabolites or Markers in a Shooter's Sample must constitute an Anti-Doping Rule violation.

5.3.1.3 As an exception to the general rule of 5.3.1, the Prohibited List may state special criteria for the evaluation of Prohibited Substances that can also be produced endogenously.

- 5.3.2 Use or Attempted Use of a Prohibited Substance or a Prohibited Method**
- 5.3.2.1** The success or failure of the Use of a Prohibited Substance or Prohibited Method is not material. It is sufficient that the Prohibited Substance or Prohibited Method was Used or Attempted to be Used for an Anti-Doping Rule violation to be committed.
- 5.3.3 Refusing, or failing without compelling justification, to submit to sample collection after notification as authorized in these Anti-Doping Rules or otherwise evading sample collection.**
- 5.3.4 Violation of the applicable requirements regarding Shooter availability** for Out-of-Competition Testing including failure to provide required whereabouts information set forth in 5.6.4 (Shooter whereabouts requirements) and missed tests which are declared based on reasonable grounds.
- 5.3.5 Tampering, or Attempting to tamper, with any part of Doping Control.**
- 5.3.6 Possession of Prohibited Substances and Methods**
- 5.3.6.1** Possession by a shooter at any time or place of a substance that is prohibited in Out-of-Competition Testing or a Prohibited Method unless the Shooter establishes that the Possession is pursuant to a therapeutic use exemption granted in accordance with 5.5.3 (Therapeutic Use) or other acceptable justification.
- 5.3.6.2** Possession of a Prohibited Substance that is prohibited in Out-of-Competition Testing or engage in or carry out a Prohibited Method by Shooter Support Personnel in connection with a Shooter, Event or training, unless the Shooter Support Personnel establish that the Possession is pursuant to a therapeutic use exemption granted to a Shooter in accordance with 5.5.3 (Therapeutic Use) or other acceptable justification.
- 5.3.7 Trafficking in any Prohibited Substance or Prohibited Method**
- 5.3.8 Administration or Attempted Administration of a Prohibited Substance or Prohibited Method** to any Shooter, or assisting, encouraging, aiding, abetting, covering up or any other type of complicity involving an Anti-Doping Rule violation or any Attempted violation.

5.4 PROOF OF DOPING

5.4.1 Burdens and Standards of Proof

The ISSF and its Member Federations must have the burden of establishing that an Anti-Doping Rule violation has occurred. The standard of proof must be whether the ISSF or its Member Federation has established an Anti-Doping Rule violation to the satisfaction of the hearing body bearing in mind the seriousness of the allegation which is made. This standard of proof in all cases is greater than a mere balance of probability but less than proof beyond a reasonable doubt. Where these Rules place the burden of proof upon the Shooter or other Person alleged to have committed an Anti-Doping Rule violation to rebut a presumption or establish specified facts or circumstances, the standard of proof must be by a balance of probability.

5.4.2 Methods of Establishing Facts and Presumptions

Facts related to Anti-Doping Rule violations may be established by any reliable means, including admissions. The following rules of proof must be applicable in doping cases.

5.4.2.1 WADA-accredited laboratories are presumed to have conducted Sample analysis and custodial procedures in accordance with the International Standard for laboratory analysis. The Shooter may rebut this presumption by establishing that a departure from the International Standard occurred.

5.4.2.2 If the Shooter rebuts the preceding presumption by showing that a departure from the International Standard occurred, then the ISSF or its Member Federation must have the burden to establish that such departure did not cause the Adverse Analytical Finding.

5.4.2.3 Departures from the International Standard for Testing which did not cause an Adverse Analytical Finding or other Anti-Doping Rule violation must not invalidate such results. If the Shooter establishes that departures from the International Standard occurred during Testing then the ISSF or its Member Federation must have the burden to establish that such departures did not cause the Adverse Analytical Finding or the factual basis for the Anti-Doping Rule violation.

5.5 THE PROHIBITED LIST

5.5.1 Incorporation of the Prohibited List

5.5.1.1 These Anti-Doping Rules incorporate the most recent Prohibited List which is published and revised by WADA as described in Article 4.1 of the Code.

5.5.2 Prohibited Substances and Prohibited Methods Identified on the Prohibited List

5.5.2.1 In all ISSF In-Competition Testing it is mandatory to analyze for Beta-Blockers. They are prohibited and no Therapeutic Use Exemptions for Beta-Blockers will be granted or accepted by the ISSF.

5.5.2.2 Alcohol is not included in the Prohibited List for the Shooting Sport and will not be tested in doping controls but alcohol is dangerous to the health, when misused, and can be a security risk at the shooting range. The range officer has the authority to immediately exclude any shooter with signs of intoxication with alcohol or other drugs. A breath analyzer and/or psychomotor tests may be used for decisions in this matter.

5.5.3 Therapeutic Use

5.5.3.1 Shooters with a documented medical condition requiring the use of a Prohibited Substance or a Prohibited Method must be in possession of a Therapeutic Use Exemption ("TUE").

5.5.3.2 Shooters who intend to participate in any ISSF Competition must obtain a TUE from the ISSF (regardless of whether the Shooter previously has received a TUE at the national level). TUEs granted by ISSF must be reported to the Shooter's Federation and to WADA.

5.5.3.3 The Executive Committee of the ISSF must appoint a panel of physicians to consider requests for TUEs (the "TUE Panel"). This TUE panel must consist of members of the Medical Committee of the ISSF. Upon the ISSF's receipt of a TUE request, the Chairman of the TUE Panel must appoint three members of the TUE Panel (which may include the Chair) to consider such request. The TUE Panel member(s) so designated must promptly evaluate such request in accordance with the International Standard for Therapeutic Use Exemptions and render a decision on such request, which must be the final decision of the ISSF.

5.6 TESTING

5.6.1 Authority to Test

5.6.1.1 All Shooters affiliated with an ISSF Member Federation must be subject to In-Competition Testing by the ISSF, its Member Federation, and any other Anti-Doping Organization responsible for Testing at a Competition or Event in which they participate.

5.6.1.2 All Shooters affiliated with an ISSF Member Federation must also be subject to Out-of-Competition Testing.

5.6.2 Responsibility for ISSF Testing

The ISSF Executive Committee must be responsible for overseeing all testing conducted by the ISSF. Testing may be conducted by the ISSF or by other qualified persons so authorized by the ISSF.

5.6.3 Testing Standards

Testing conducted by the ISSF and its Member Federations must be in substantial conformity with the International Standard for Testing in force at the time of Testing.

5.6.3.1 Blood (or other non-urine) Samples may be used either to detect Prohibited Substances or Prohibited Methods or for screening procedure purposes only. If the blood is collected for screening only, it will have no other consequences for the Athlete other than to identify him/her for a urine test under these Anti-Doping Rules. In these circumstances, the chairman of the ISSF Medical Committee and/or the ISSF Secretary General may decide at his/their own discretion which blood parameters are to be measured in the screening Sample and what levels of those parameters will be used to indicate that an Athlete should be selected for a urine test.

5.6.4 Shooter Whereabouts Requirements

5.6.4.1 National Level Registered Testing Pool

Each ISSF Member Federation may assist their National Anti-Doping Organization in establishing a national level Registered Testing Pool of top level national Shooters. The ISSF Member Federation and National Anti-Doping Organization may establish whereabouts reporting requirements and criteria for 5.3.4 violations applicable to those Shooters.

5.6.4.2 International Level Registered Testing Pool

The International Level Registered Testing Pool consists of the top 10 ranked athletes of the official ISSF World Ranking List which is published on the ISSF Internet website and updated monthly for each Olympic Event. Each athlete in the Registered Testing Pool must establish and send his/her whereabouts information to the ISSF Headquarters and update the same on a regular basis so that it is current at all times. Their whereabouts must include all scheduled training sessions, training camps and other official shooting activities. Forms for completion are available from ISSF Headquarters. The ultimate responsibility for providing whereabouts information rests with each shooter; however, it will be the responsibility of each ISSF Member Federation to use its best efforts to assist the ISSF in obtaining whereabouts information as requested by the ISSF.

5.6.4.2.1 Any Shooter in the ISSF Registered Testing Pool who is unavailable for Testing after three attempts during any period of 12 consecutive months will be considered to have committed an anti-doping rule violation pursuant to Article 5.3.4. For each attempt, the Doping Control Officer will visit all locations at the times specified by the Shooter for that date and will stay two hours at each location, unless it is determined beyond reasonable doubt by the doping control officer that the shooter will not be present at that location within the 2 hour timeframe. Notification will be sent to the Shooter between each attempt which is to be counted as an unavailable test.

5.6.4.2.2 Any shooter in the ISSF Registered Testing Pool who fails to submit timely whereabouts report when required after receipt of two formal written warnings from ISSF, or an ISSF Member Federation, to do so in the preceding 12 months will be considered to have committed an anti-doping rule violation pursuant to Article 5.3.4.

5.6.5 Selection of Shooters to be tested

5.6.5.1 The following Shooters will be tested in all ISSF Competitions:

5.6.5.1.1 the medal winners;

5.6.5.1.2 any Shooter that establishes, breaks or ties a World Record;

5.6.5.1.3 any Shooter that becomes eligible to gain a Quota Place;

5.6.5.1.4 a randomly selected member of a team that establishes, breaks or ties a World Record;

5.6.5.1.5 random or target testing as decided by the ISSF Anti-Doping Committee or its representative at a competition.

5.6.5.2 ISSF Member Federations and organizing committees for ISSF Competitions must provide access to Independent Observers at Competitions as directed by the ISSF.

5.7 ANALYSIS OF SAMPLES

Doping Control Samples collected under these Anti-Doping Rules must be analyzed in accordance with the Code.

5.8 RESULTS MANAGEMENT

5.8.1 Results Management for Tests Initiated by the ISSF

Results Management for Tests Initiated by ISSF (including Tests performed by WADA pursuant to agreement with the ISSF) must proceed as set forth below.

5.8.1.1 Laboratory Reports

The reports of all analyses of A samples by the laboratory must be forwarded unopened directly to the ISSF Secretary General who must open such reports and determine the identity of any shooters who provided samples that are declared adverse.

5.8.1.2 Initial Review

Upon receipt of an A Sample Adverse Analytical Finding, the ISSF Anti-Doping Committee must conduct a review to determine whether:

5.8.1.2.1 an applicable therapeutic use exemption had been granted; or

5.8.1.2.2 there is any apparent departure from the International Standards for Testing or Laboratory Analysis that undermines the validity of the Adverse Analytical Finding.

5.8.1.3 Notification After Initial Review

5.8.1.3.1 If the initial review under 5.8.1.2 does not reveal an applicable therapeutic use exemption or departure that undermines the validity of the Adverse Analytical Finding, the Secretary General of the ISSF must notify the Federation of a shooter whose sample has been declared positive, by means of a confidential communication, of:

5.8.1.3.1.1 the Adverse Analytical Finding;

5.8.1.3.1.2 the Anti-Doping Rule violated, or, in a case under 5.8.1.11, a description of the additional investigation that will be conducted as to whether there is an Anti-Doping Rule violation;

5.8.1.3.1.3 the Shooter's right to promptly request within ten (10) days of the sending of the communication the analysis of the B Sample or, failing such request, that the B Sample analysis may be deemed waived;

- 5.8.1.3.1.4** the right of the Shooter and/or the Shooter's representative to attend the B Sample opening and analysis if such analysis is requested; and
- 5.8.1.3.1.5** the Shooter's right to request copies of the A and B Sample laboratory documentation which includes information as required by the International Standard for laboratory analysis.
- 5.8.1.3.2** The Member Federation of the shooter must immediately inform the shooter concerned.
- 5.8.1.4** **B Sample Testing**
- The Federation and/or the shooter concerned has/have the right to request the Secretary General of the ISSF to arrange an analysis of the B sample. This request must be made within ten (10) days of the days of the sending of the communication as per 5.8.1.3.1 above, otherwise the request will not be accepted. If a request is submitted after this deadline, or if a B sample analysis is not requested, the result of the analysis of the A sample is definitive.
- 5.8.1.5** The B sample analysis is designed to protect a shooter's rights and must be carried out within 21 days of receipt of the written request of the shooter or of his/her Federation, by a different team of analysts from the same laboratory. The analysis of the B sample is conducted to ascertain whether that sample discloses the presence of the same prohibited substance(s) detected in the A sample.
- 5.8.1.6** The Chairman of the ISSF Anti-Doping Committee or his/her representative has the right to be present during the B sample analysis.
- 5.8.1.7** The shooter and his/her national Federation have the right to be present or to be represented at their own costs during the analysis of the B sample.
- 5.8.1.8** Once testing of the B sample is complete, the laboratory report must be sent to the ISSF together with a copy of all relevant laboratory data.
- 5.8.1.9** The ISSF may at any time request analysis of the B sample if it believes that this will be relevant for the evaluation of a shooter's case.
- 5.8.1.10** The costs of the B sample analysis must be borne by the shooter or Federation requesting it. However, if the results of the B sample analysis invalidate the first analysis, the costs must be borne by the Organizing Committee or the ISSF.

5.8.1.11 Further Investigations

The ISSF must conduct further investigations as may be required by the Prohibited List. Upon completion of such further investigation, the ISSF must notify promptly the Federation of the Shooter or Shooter Support Personnel regarding the results of the follow-up investigation and whether or not the ISSF asserts that an Anti-Doping Rule was violated.

5.8.1.12 Violations other than Adverse Analytical Findings

For apparent Anti-Doping Rule violations that do not involve Adverse Analytical Findings, the ISSF must conduct any necessary follow-up investigation and must then promptly notify the Federation of the Shooter or Shooter Support Personnel of the Anti-Doping Rule which appears to have been violated, and the basis of the violation.

5.8.2 Results Management for Tests Initiated During Other International Competitions

Results management and the conduct of hearings from a test by the International Olympic Committee, the International Paralympics Committee, or a Major Organization, must be managed, as far as sanctions beyond Disqualification from the Event or the results of the Event are concerned, by the ISSF.

5.8.3 Results Management for Tests initiated by ISSF Member Federations

Results management conducted by Member Federations must be consistent with the general principles for effective and fair results management - which underlie the detailed provisions set forth in 5.8.1. Results of all Doping Controls must be reported to the ISSF within 14 days of the conclusion of the Member Federation's result management process. Any apparent Anti-Doping Rule violation by a Shooter who is a member of that Federation must be promptly referred to an appropriate hearing panel established pursuant to the rules of the Federation or national law. Apparent Anti-Doping Rule violations by Shooters who are members of another Member Federation must be referred to that Federation for hearing.

5.8.4 Provisional Suspensions

The ISSF is authorized to, and will, Provisionally Suspend a Shooter until the time of a full hearing based on an Adverse Analytical Finding and the review described in 5.8.1.2.

5.9 HEARINGS

5.9.1 Hearings Arising from ISSF Testing or Tests at ISSF Competitions

5.9.1.1 When it appears, following the results management process described in 5.8, that these Anti-Doping Rules have been violated in connection with ISSF Testing or testing at an ISSF Competition then the case must be assigned to the ISSF Commission of Inquiry for investigation.

5.9.1.2 This commission must consist of:

5.9.1.2.1 the chairman of the ISSF Medical Committee or his representative;

5.9.1.2.2 one medical doctor appointed by the chairman of the ISSF Medical Committee;

5.9.1.2.3 one member of the Administrative Council appointed by the ISSF President.

5.9.1.3 None of the three members may be from the same country as the Shooter or the Shooter Support Personnel concerned.

5.9.2 For the purpose of determining the nature, the circumstances and the seriousness of the doping offence, the Commission of Inquiry must give the Shooter or Shooter Support Personnel an opportunity to submit his/her/their point of view, at the Shooter's or the Shooter's Support Personnel's choice, either:

5.9.2.1 orally before the Commission, or before one of its members whom it appoints for that purpose; or

5.9.2.2 in writing.

5.9.3 The Shooter or Shooter Support Personnel may produce any evidence which he/she/they thinks assists his/her/their case:

5.9.3.1 he/she/they may be accompanied and/or assisted by a person of his/her/their choice and in particular by the doctor who prescribed a medication that may have contained a prohibited substance and, if appropriate, by an interpreter.

5.9.4 At the conclusion of the investigation (or of the exchange of correspondence), the Commission must satisfy itself:

5.9.4.1 that the conduct of the testing and analysis of the samples was correct;

5.9.4.2 that it is sufficiently well informed about all the circumstances of the case. If not, it must seek further information.

5.9.5 A Shooter or other Person may forego a hearing by acknowledging the Anti-Doping Rule violation and accepting the Consequences consistent with 5.10 and 5.11 as proposed by the ISSF.

5.10 AUTOMATIC DISQUALIFICATION OF INDIVIDUAL RESULTS

A violation of these Anti-Doping Rules in connection with an In-Competition test automatically leads to Disqualification of the individual result obtained in that Event with all resulting consequences, including forfeiture of any medals, points and prizes.

5.11 SANCTIONS ON INDIVIDUALS

5.11.1 Disqualification of Results in a Competition During which an Anti-Doping Rule Violation Occurs

5.11.1.1 The Commission of Inquiry upon conclusion of the investigation must present recommendations to the ISSF Executive Committee which will decide on sanctions.

5.11.1.2 An Anti-Doping Rule violation occurring during or in connection with an Event may lead to Disqualification of all of the Shooter's individual results obtained in that Competition with all consequences, including forfeiture of all medals, points and prizes, except as provided in 5.11.1.3.

5.11.1.3 If the Shooter establishes that he or she bears No Fault or Negligence for the violation, the Shooter's individual results in the other Events must not be Disqualified unless the Shooter's results in Events other than the Event in which the Anti-Doping Rule violation occurred were likely to have been affected by the Shooter's Anti-Doping Rule violation.

5.11.2 Imposition of Ineligibility for Prohibited Substances and Prohibited Methods

Except for the specified substances identified in 5.11.3, the period of Ineligibility imposed for a violation of 5.3.1 (presence of Prohibited Substance or its Metabolites or Markers), 5.3.2 (Use or Attempted Use of Prohibited Substance or Prohibited Method) and 5.3.6 (Possession of Prohibited Substances and Methods) must be:

5.11.2.1 First violation: Two (2) years Ineligibility;

5.11.2.2 Second violation: Lifetime Ineligibility.

5.11.2.3 However, the Shooter or other Person must have the opportunity in each case, before a period of Ineligibility is imposed, to establish the basis for eliminating or reducing this sanction as provided in 5.11.5.

5.11.3 Specified Substances

The Prohibited List may identify specified substances which are particularly susceptible to unintentional Anti-Doping Rules violations because of their general availability in medicinal products or which are less likely to be successfully abused as doping agents. Where a Shooter can establish that the Use of such a specified substance was not intended to enhance sport performance, the period of Ineligibility found in 5.11.2 must be replaced with the following:

5.11.3.1 First violation: At a minimum, a warning and reprimand and no period of Ineligibility from future Competitions, and at a maximum, one (1) year's Ineligibility;

5.11.3.2 Second violation: Two (2) years Ineligibility;

5.11.3.3 Third violation: Lifetime Ineligibility.

5.11.3.4 However, the Shooter or other Person must have the opportunity in each case, before a period of Ineligibility is imposed, to establish the basis for eliminating or reducing (in the case of a second or third violation) this sanction as provided in 5.11.5.

5.11.4 Ineligibility for Other Anti-Doping Rule Violations

The period of Ineligibility for other violations of these Anti-Doping Rules must be:

5.11.4.1 for violations of 5.3.3 (refusing or failing to submit to sample collection) or 5.3.5 (Tampering with Doping Control), the Ineligibility periods set forth in 5.11.2 must apply;

5.11.4.2 for violations of 5.3.7 (Trafficking) or 5.3.8 (Administration of Prohibited Substance or Prohibited Method), the period of Ineligibility imposed must be a minimum of four (4) years up to lifetime Ineligibility. An Anti-Doping Rule violation involving a Minor must be considered a particularly serious violation, and, if committed by Shooter Support Personnel for violations other than specified substances referenced in 5.11.3, must result in lifetime Ineligibility for such Shooter Support Personnel. In addition, violations of such articles which also violate non-sporting laws and regulations, may be reported to the competent administrative, professional or judicial authorities;

5.11.4.3 for violations of 5.3.4 (Whereabouts Violations or Missed Tests), the period of Ineligibility must be:

5.11.4.3.1 First violation: Three (3) months to one (1) year Ineligibility;

5.11.4.3.2 Second and subsequent violations: Two (2) years Ineligibility.

5.11.5 Elimination or Reduction of Period of Ineligibility Based on Exceptional Circumstances

5.11.5.1 No Fault or Negligence

If the Shooter establishes in an individual case involving an Anti-Doping Rule violation under 5.3.1 (presence of Prohibited Substance or its Metabolites or Markers) or Use of a Prohibited Substance or Prohibited Method under 5.3.2 that he or she bears No Fault or Negligence for the violation, the otherwise applicable period of Ineligibility must be eliminated. When a Prohibited Substance or its Metabolites or Markers is detected in a Shooter's Specimen in violation of 5.3.1 (presence of Prohibited Substance), the Shooter must also establish how the Prohibited Substance entered his or her system in order to have the period of Ineligibility eliminated. In the event this Article is applied and the period of Ineligibility otherwise applicable is eliminated, the Anti-Doping Rule violation must not be considered a violation for the limited purpose of determining the period of Ineligibility for multiple violations under 5.11.2, 5.11.3 and 5.11.6.

5.11.5.2 No Significant Fault or Negligence

This Article 5.11.5.2 applies only to Anti-Doping Rule violations involving 5.3.1 (presence of Prohibited Substance or its Metabolites or Markers), Use of a Prohibited Substance or Prohibited Method under 5.3.2, failing to submit to sample collection under 5.3.3, or administration of a Prohibited Substance or Prohibited Method under 5.3.8. If a Shooter establishes in an individual case involving such violations that he or she bears No Significant Fault or Negligence, then the period of Ineligibility may be reduced, but the reduced period of Ineligibility may not be less than one-half of the minimum period of Ineligibility otherwise applicable. If the otherwise applicable period of Ineligibility is a lifetime, the reduced period under this section may be no less than 8 years. When a Prohibited Substance or its Metabolites or Markers is detected in a Shooter's Specimen in violation of 5.3.1 (presence of Prohibited Substance), the Shooter must also establish how the Prohibited Substance entered his or her system in order to have the period of Ineligibility reduced.

5.11.5.3 Shooter's Substantial Assistance in Discovering or Establishing Anti-Doping Rule Violations by Shooter Support Personnel and Others.

The ISSF may also reduce the period of Ineligibility in an individual case where the Shooter has provided substantial assistance to the ISSF which results in the ISSF discovering or establishing an Anti-Doping Rule violation by another Person involving Possession under 5.3.6.2 (Possession by Shooter Support Personnel), 5.3.7 (Trafficking), or 5.3.8 (administration to a Shooter). The reduced period of Ineligibility may not, however, be less than one-half of the minimum periods of Ineligibility otherwise applicable. If the otherwise applicable period of Ineligibility is a lifetime, the reduced period under this section may be no less than 8 years.

5.11.6 Rules for Certain Potential Multiple Violations

5.11.6.1 For purposes of imposing sanctions under 5.11.2, 5.11.3 and 5.11.4, a second Anti-Doping Rule violation may be considered for purposes of imposing sanctions only if the ISSF or its Member Federation can establish that the Shooter or other Person committed the second Anti-Doping Rule violation after the Shooter or other Person received notice, or after the ISSF or its Member Federation made a reasonable Attempt to give notice, of the first Anti-Doping Rule violation; if the ISSF or its Member Federation cannot establish this, the violations must be considered as one single first violation, and the sanction imposed must be based on the violation that carries the more severe sanction.

5.11.6.2 Where a Shooter, based on the same Doping Control, is found to have committed an Anti-Doping Rule violation involving both a specified substance under 5.11.3 and another Prohibited Substance or Prohibited Method, the Shooter must be considered to have committed a single Anti-Doping Rule violation, but the sanction imposed must be based on the Prohibited Substance or Prohibited Method that carries the more severe sanction.

5.11.6.3 Where a Shooter is found to have committed two separate Anti-Doping Rule violations, one involving a specified substance governed by the sanctions set forth in 5.11.3 (Specified Substances) and the other involving a Prohibited Substance or Prohibited Method governed by the sanctions set forth in 5.11.2 or a violation governed by the sanctions in 5.11.4.1, the period of Ineligibility imposed for the second offence must be at a minimum two years' Ineligibility and at a maximum three years' Ineligibility. Any Shooter found to have committed a third Anti-Doping Rule violation involving any combination of specified substances under 5.11.3 and any other Anti-Doping Rule violation under 5.11.2 or 5.11.4.1 must receive a sanction of lifetime Ineligibility.

5.11.7 Disqualification of Results in Competitions Subsequent to Sample Collection

In addition to the automatic Disqualification of the shooting results in the Event which produced the positive Sample under 5.10 (Automatic Disqualification of Individual Results), all other competitive results obtained from the date a positive Sample was collected (whether In-Competition or Out-of-Competition), or other doping violation occurred, through the commencement of any Provisional Suspension or Ineligibility period, shall, unless fairness requires otherwise, be Disqualified with all of the resulting consequences including forfeiture of any medals, points and prizes.

5.11.8 Commencement of Ineligibility Period

The period of Ineligibility must start on the date of the hearing decision providing for Ineligibility or, if the hearing is waived, on the date Ineligibility is accepted or otherwise imposed. Any period of Provisional Suspension (whether imposed or voluntarily accepted) must be credited against the total period of Ineligibility to be served. Where required by fairness, such as delays in the hearing process or other aspects of Doping Control not attributable to the Shooter, the ISSF or its Member Federation imposing the sanction may start the period of Ineligibility at an earlier date commencing as early as the date of sample collection.

5.11.9 Status During Ineligibility

No Person who has been declared Ineligible may, during the period of Ineligibility, participate in any capacity in a competition or activity (other than authorized anti-doping education or rehabilitation programs) authorized or organized by the ISSF or any of its Member Federations. In addition, for any Anti-Doping Rule violation not involving specified substances described in 5.11.3, some or all sport-related financial support or other sport-related benefits received by such Person will be withheld by the ISSF, the ISSF Member Federations and governments. A Person subject to a period of Ineligibility longer than four years may, after completing four years of the period of Ineligibility, participate in local sport events in a sport other than the sport in which the Person committed the anti-doping rule violation, but only so long as the local sport event is not at a level that could otherwise qualify such Person directly or indirectly to compete in (or accumulate toward) a national championship or International Event.

5.11.10 Reinstatement Testing

As a condition to regaining eligibility at the end of a specified period of Ineligibility, a Shooter must, during any period of Provisional Suspension or Ineligibility, make him or herself available for Out-of-Competition Testing by any Anti-Doping Organization having testing jurisdiction, and must, if requested, provide current and accurate whereabouts information as provided in 5.6.4. If a Shooter subject to a period of Ineligibility retires from sport and is removed from Out-of-Competition Testing pools and later seeks reinstatement, the Shooter must not be eligible for reinstatement until the Shooter has notified the ISSF and his/her ISSF Member Federation and has been subject to Out-of-Competition Testing for a period of time equal to the period of Ineligibility remaining as of the date the Shooter had retired.

5.12 CONSEQUENCES TO TEAMS

If a member of a team is found to have committed a violation of these Anti-Doping Rules during an Event, the team must be Disqualified from the Event and all team rankings must be adjusted to this disqualification.

5.13 SANCTIONS AND COSTS ASSESSED AGAINST ISSF MEMBER FEDERATIONS

5.13.1 The ISSF has the authority to withhold some or all funding or other non financial support to Member Federations that are not in compliance with these Anti-Doping Rules.

5.13.2 Member Federations must be obligated to reimburse the ISSF for all costs (including but not limited to laboratory fees, hearing expenses and travel) related to a violation of these Anti-Doping Rules committed by a Shooter or other Person affiliated with that Member Federation.

5.14 APPEALS

5.14.1 Decisions Subject to Appeal

Decisions made under these Anti-Doping Rules may be appealed as set forth in 5.14.2 through 5.14.4. Such decisions must remain in effect while under appeal unless the appellate body orders otherwise.

5.14.2 Appeals from Decisions Regarding Anti-Doping Rule Violations, Consequences, and Provisional Suspensions

An appeal against the decision of the ISSF Executive Committee can be lodged with the Court of Arbitration of Sport (CAS) in accordance with the Code. Any recourse to ordinary courts of any country is excluded.

5.14.2.1 Persons Entitled to Appeal

5.14.2.1.1 In cases arising from an Event in an ISSF Competition the decision may be appealed exclusively to the Court of Arbitration for Sport ("CAS") in accordance with the provisions applicable before such court. In those cases the following parties must have the right to appeal to CAS:

5.14.2.1.1.1 the Shooter or other Person who is the subject of the decision being appealed;

5.14.2.1.1.2 the other party to the case in which the decision was rendered;

5.14.2.1.1.3 the ISSF and any other Anti-Doping Organization under whose rules a sanction could have been imposed;

5.14.2.1.1.4 the International Olympic Committee or International Paralympics Committee, as applicable, where the decision may have an effect in relation to the Olympic Games or Paralympics Games, including decisions affecting eligibility for the Olympic Games or Paralympics Games; and

5.14.2.1.1.5 WADA.

5.14.2.1.2 In cases involving Shooters that do not have a right to appeal under 5.14.2.1.1, the parties having the right to appeal to the national-level reviewing body must be as provided in the ISSF Member Federation's rules but, at a minimum, must include:

5.14.2.1.2.1 the Shooter or other Person who is the subject of the decision being appealed;

5.14.2.1.2.2 the other party to the case in which the decision was rendered;

5.14.2.1.2.3 the ISSF; and

5.14.2.1.2.4 WADA.

5.14.3 Appeals from Decisions Granting or Denying a Therapeutic Use Exemption

Decisions by WADA reversing the grant or denial of a TUE may be appealed exclusively to CAS by the Shooter, the ISSF or National Anti-Doping Organization or other body designated by an ISSF Member Federation which granted or denied the exemption. Decisions to deny therapeutic use exemptions, and which are not reversed by WADA, may be appealed by International-Level Shooters to CAS.

5.14.4 Appeals from Decisions Pursuant to 5.13

Decisions by the ISSF pursuant to 5.13 may be appealed exclusively to CAS by the ISSF Member Federation.

5.15 Recognition

5.15.1 ISSF Member Federations must inform the Secretary General of the ISSF and WADA of any anti-doping rule violation of a shooter and of any doping sanction that they impose on a shooter. This information must be accompanied by a copy of the complete file on the doping control test and must be sent to the ISSF as soon as the decision of the ISSF Member Federation becomes final.

ISSF Member Federations shall include in their regulations a provision granting to ISSF and WADA a right to appeal against any decision taken by ISSF Member Federations in doping matters. The time limit for such an appeal shall be specified along with the transmittal of the information set out in the preceding paragraph and shall not begin until such information has been received by ISSF and WADA.

5.15.2 The ISSF Executive Committee may decide whether and to what extent a sanction shall be imposed for the purposes of all ISSF Competitions on a shooter sanctioned by a ISSF Member Federation provided that the ISSF Executive Committee is satisfied that the testing was properly carried out and that the rules of the body conducting the test afford sufficient protection for the competitors. The implicated shooter has the right to be heard. He may be suspended provisionally before the hearing.

5.15.3 If a sanction is imposed by the ISSF according to the preceding paragraph, all other national Federations must apply this sanction for the purposes of their national competitions. To this end, the ISSF Secretary General must inform all ISSF Member Federations of the sanction thus imposed.

5.15.4 In the event of sanctions being imposed by the ISSF on the basis of doping control tests conducted during ISSF Competitions, the ISSF Member Federations must apply this sanction for the purposes of their national competitions. To this end, the ISSF must inform all ISSF Member Federations of such sanctions.

5.15.5 In the event that a shooter is found guilty of doping during doping control tests conducted under the control of organizations outside the ISSF and its Member Federations (e.g. State bodies, the IOC, WADA or other international federations) the ISSF Executive Committee must decide whether and to what extent a sanction must be imposed on the shooter for the purposes of ISSF Competitions; in taking the decision, the ISSF Executive Committee must satisfy itself that the testing was properly carried out and that the rules of the body conducting the test afford sufficient protection for the competitors. The shooter concerned has a right to be heard. If a sanction is imposed, the ISSF must inform all Member Federations of the sanction thus imposed for the purposes of their national competitions.

5.15.6 In the event of a positive doping test within the jurisdiction of a ISSF Member Federation, the ISSF Executive Committee is authorized to impose a sanction according to these regulations if the ISSF Member Federation fails to do so, provided that the ISSF Executive Committee is satisfied that the testing was properly carried out and that the rules of the body conducting the test afford sufficient protection for the competitors. The shooter concerned has the right to be heard. He may be suspended provisionally before the hearing.

5.16 RECOGNITION OF DECISIONS BY OTHER ORGANIZATIONS

Subject to the right to appeal provided in 5.14, the Testing, therapeutic use exemptions and hearing results or other final adjudications of any Signatory to the Code which are consistent with the Code and are within that Signatory's authority, must be recognized and respected by the ISSF and its Member Federations. The ISSF and its Member Federations may recognize the same actions of other bodies which have not accepted the Code if the rules of those bodies are otherwise consistent with the Code.

5.17 STATUTE OF LIMITATIONS

No action may be commenced under these Anti-Doping Rules against a Shooter or other Person for a violation of an Anti-Doping Rule contained in these Anti-Doping Rules unless such action is commenced within eight years from the date the violation occurred.

5.18 ISSF COMPLIANCE REPORTS TO WADA

The ISSF will report to WADA on the ISSF's compliance with the Code every second year and must explain reasons for any non-compliance.

5.19 GENERAL

5.19.1 Alterations of these ISSF Anti-Doping Rules must be approved by a two-thirds majority vote of the Administrative Council.

5.19.2 Changes of the ISSF Anti-Doping Rules become effective immediately upon approval or from a specific date if so stated in the Rules.

5.19.3 The first ISSF Anti-Doping Rules were approved by the ordinary General Assembly of the UIT (ISSF) on October 30, 1982 in Caracas, Venezuela and were modified by decisions of the Administrative Council on April 22, 1996 in Atlanta, USA, on March 21, 2000 in Sydney, Australia, on April 29, 2001 in Cairo, Egypt, by unanimous postal vote on June 17, 2001 in Munich, Germany, and by postal vote on November 7th, 2003 and will be effective from January 1, 2004.

ANNEX 1

DEFINITIONS, for these Anti-Doping Rules only

Adverse Analytical Finding

A report from a laboratory or other approved Testing entity that identifies in a Specimen the presence of a Prohibited Substance or its Metabolites or Markers (including elevated quantities of endogenous substances) or evidence of the Use of a Prohibited Method.

Anti-Doping Organization

A Signatory that is responsible for adopting rules for initiating, implementing or enforcing any part of the Doping Control process. This includes, for example, the International Olympic Committee, the International Paralympics Committee, and other Major Organizations that conduct Testing at their Competitions, WADA, International Federations, and National Anti-Doping Organizations.

Athlete

For purposes of Doping Control, any Person who participates in sport at the international level (as defined by each International Federation) or national level (as defined by each National Anti-Doping Organization) and any additional Person who participates in sport at a lower level if designated by the Person's National Anti-Doping Organization. For purposes of anti-doping information and education, any Person who participates in sport under the authority of any Signatory, government, or other sports organization accepting the Code.

Athlete Support Personnel (Shooter Support Personnel)

Any coach, trainer, manager, agent, team staff, official, medical or paramedical personnel working with or treating Athletes participating in or preparing for sports competition.

Attempt

Purposely engaging in conduct that constitutes a substantial step in a course of conduct planned to culminate in the commission of an Anti-Doping Rule violation. Provided, however, there must be no Anti-Doping Rule violation based solely on an Attempt to commit a violation if the Person renounces the attempt prior to it being discovered by a third party not involved in the Attempt.

Code

The World Anti-Doping Code.

Commission of Inquiry

A three-member commission with medical expertise, appointed by the ISSF to investigate all circumstances and to prepare a report for the ISSF Executive Committee when the initial review has shown a possible violation of these Anti-Doping Rules.

Competition

A series of individual Events conducted together under one ruling body (e.g., the Olympic Games, FINA World Championships, or Pan American Games).

Examples in the Shooting Sport are a World Cup or Continental Championships.

Consequences of Anti-Doping Rules Violations

An Athlete's/Shooter's or other Person's violation of an Anti-Doping Rule may result in one or more of the following:

(a) disqualification means the Athlete's/Shooter's results in a particular Event are invalidated, with all resulting consequences including forfeiture of any medals, points and prizes;

(b) ineligibility means the Athlete/Shooter or other person is barred for a specified period of time from participating in any Competition or other activity or funding as provided in the Code; and

(c) provisional Suspension means the Athlete/Shooter or other Person is barred temporarily from participating in any Competition prior to the final decision at a hearing conducted under Article 5.9 (Hearings).

Disqualification

See Consequences of Anti-Doping Rules Violations above.

Doping Control

The process including test distribution planning, sample collection and handling, laboratory analysis, results management, hearings and appeals.

Event

In Shooting Sport this means a complete match with or without any Final or shoot-off. Examples: Running Target 30+30 is one event even if it is shot in two consecutive days. If there are elimination relays with or without team competition before an individual event, as sometimes in 50 m Rifle Prone Men, these elimination relays together with the individual event are only one event.

In-Competition

For purposes of differentiating between In-Competition and Out-of-Competition Testing, unless provided otherwise in the rules of an International Federation or other relevant Anti-Doping Organization, an In-Competition test is a test where an Athlete is selected for testing in connection with a specific Event.

Independent Observer Program

A team of observers, under the supervision of WADA, who observe the Doping Control process at certain Competitions and report on observations. If WADA is testing In-competition at a Competition, the observers must be supervised by an independent organization.

Ineligibility

See Consequences of Anti-Doping Rules Violations above.

International Competition

A competition where the International Olympic Committee, the International Paralympics Committee, an International Federation, a Major Organization, or another international sport organization is the ruling body for the competition or appoints the technical officials for the competition.

In Shooting Sport this means the ISSF supervised competition (Championships) as defined in 3.2.1

International-Level Athlete/Shooter

Athletes designated by one or more International Federations as being within the Registered Testing pool for an International Federation.

International Level Registered Testing Pool

The top 10 ranked athletes of the official ISSF World Ranking List are required to establish their whereabouts.

International Standard

A standard adopted by WADA in support of the Code. Compliance with an International Standard (as opposed to another alternative standard, practice or procedure) must be sufficient to conclude that the procedures addressed by the International Standard were performed properly.

ISSF

International Shooting Sport Federation

Major Organizations

This term refers to the continental associations of National Olympic Committees and other international multi-sport organizations that function as the ruling body for any continental, regional or other International Competition.

Marker

A compound, group of compounds or biological parameters that indicates the Use of a Prohibited Substance or Prohibited Method.

Metabolite

Any substance produced by a biotransformation process.

Minor

An Individual who has not reached the age of majority as established by the applicable laws of his or her country of residence.

National Anti-Doping Organization

The entity(ies) designated by each country as possessing the primary authority and responsibility to adopt and implement Anti-Doping Rules, direct the collection of Samples, the management of test results, and the conduct of hearings, all at the national level. If this designation has not been made by the competent public authority(ies), the entity must be the country's National Olympic Committee or its designee.

**National Competition**

A sport competition involving international or national-level Athletes/Shooters that is not an International Competition.

National Olympic Committee

The organization recognized by the International Olympic Committee. The term National Olympic Committee must also include the National Sport Confederation in those countries where the National Sport Confederation assumes typical National Olympic Committee responsibilities in the anti-doping area.

No Advance Notice

A Doping Control which takes place with no advance warning to the Athlete/Shooter and where the Athlete/Shooter is continuously chaperoned from the moment of notification through Sample provision.

No Fault or Negligence

The Athlete's/Shooter's establishing that he or she did not know or suspect, and could not reasonably have known or suspected even with the exercise of utmost caution, that he or she had Used or been administered the Prohibited Substance or Prohibited Method.

No Significant Fault or Negligence

The Athlete's/Shooter's establishing that his or her fault or negligence, when viewed in the totality of the circumstances and taking into account the criteria for No Fault or Negligence, was not significant in relationship to the Anti-Doping Rule violation.

Out-of-Competition

Any Doping Control which is not In-competition.

Participant

Any Athlete/Shooter or Athlete/Shooter Support Personnel.

Person

An individual or an organization or other entity.

Possession

The actual, physical possession, or the constructive possession (which must be found only if the person has exclusive control over the Prohibited Substance/Method or the premises in which a Prohibited Substance/Method exists); provided, however, that if the person does not have exclusive control over the Prohibited Substance/Method or the premises in which a Prohibited Substance/Method exists, constructive possession must only be found if the person knew about the presence of the Prohibited Substance/Method and intended to exercise control over it. Provided, however, there must be no Anti-Doping Rule violation based solely on possession if, prior to receiving notification of any kind that the Person has committed an Anti-Doping Rule violation, the Person has taken concrete action demonstrating that the Person no longer intends to have Possession and has renounced the Person's previous Possession.

**Prohibited List**

The List identifying the Prohibited Substances and Prohibited Methods.

Prohibited Method

Any method so described on the Prohibited List.

Prohibited Substance

Any substance so described on the Prohibited List.

Provisional Suspension

See Consequences above.

Publicly Disclose or Publicly Report

To disseminate or distribute information to the general public or persons beyond those persons entitled to earlier notification in accordance with Article 5.15.

Registered Testing Pool

All shooters entering ISSF Competitions are subject to both In-Competition and Out-of-Competition testing as decided by ISSF, WADA or other authorized Anti-Doping Organization.

Sample/Specimen

Any biological material collected for the purposes of Doping Control.

Shooter

See Athlete.

Shooter Support Personnel

See Athlete Support Personnel.

Signatories

Those entities signing the Code and agreeing to comply with the Code, including the International Olympic Committee, International Federations, International Paralympics Committee, National Olympic Committees, National Paralympics Committees, Major Organizations, National Anti-Doping Organizations, and WADA.

Tampering

Altering for an improper purpose or in an improper way; bringing improper influence to bear; interfering improperly to alter results or prevent normal procedures from occurring.

Target Testing

Selection of Athletes/Shooters for Testing where specific Athletes/Shooters or groups of Athletes/Shooters are selected on a non-random basis for Testing at a specified time.

Testing

The parts of the Doping Control process involving test distribution planning, sample collection, Sample handling, and Sample transport to the laboratory.

Therapeutic Use

Shooters with a documented medical condition requiring the use of a Prohibited Substance or a Prohibited Method must be in possession of a Therapeutic Use Exemption ("TUE").

Trafficking

To sell, give, administer, transport, send, deliver or distribute a Prohibited Substance or Prohibited Method to an Athlete/Shooter either directly or through one or more third parties, but excluding the sale or distribution (by medical personnel or by Persons other than an Athlete's/Shooter's Support Personnel) of a Prohibited Substance for genuine and legal therapeutic purposes.

Use

The application, ingestion, injection or consumption by any means whatsoever of any Prohibited Substance or Prohibited Method.

WADA

World Anti-Doping Agency.

Therapeutic Use Exemptions

Standard Application Form

I apply for approval from the International Shooting Sport Federation, ISSF, for the therapeutic use of a prohibited substance on the WADA List of Prohibited Substances and Prohibited Methods.

Please complete all sections

1. Shooter Information

Surname: Given Names:

Female Male Shooter's ID number (see note 1)

Address:
City: Country: Postcode:
Date of Birth (d/m/y):
Tel. Work: Tel. Home: Mobile:
E-mail: Fax:
Sport: Discipline/Position:
National Shooting Federation:
If athlete with disability, indicate disability:

2. Notifying medical practitioner

Name, qualifications and medical speciality (see note 2):
.....
.....
Address:
..... E-mail address:
Tel. Work: Tel. Home:
Mobile: Fax:
*Diagnosis (see note 3):
.....
Has the National Shooting Federation Chief Medical Officer been notified of this request? Yes:
No:
Name of NSF's Chief Medical Officer (see note 4):

Annex 3, Page 2 of 4

3. Medication details (see note 5)

Prohibited Substance(s):	Dose of administration	Route of administration	Frequency of administration
1.			
2.			
3.			

Anticipated duration of this medication plan	
---	--

Previous / Current TUE request(s): yes no

If yes: Date:

Anti-Doping Organization:

Result (*attach previous TUE(s)*):

If appropriate, reasons for not prescribing alternative therapies (*see note 6*):

.....

.....

.....

4. Please note additional information and attach sufficient medical information to substantiate the diagnosis and the necessity to use a prohibited substance:

.....

.....

.....

.....

Annex 3, Page 3 of 4

5. Medical practitioner's and shooter's declaration

I, certify the above-mentioned substance/s for the above-named shooter has been/are to be administered as the correct treatment for the above-named medical condition.
Signature of Medical Practitioner: Date:

I, certify that the information under 1. is accurate and that I am requesting approval to use a Substance or Method from the WADA Prohibited List. I authorize the release of personal medical information to the ISSF as well as to WADA staff and to the WADA TUEC (Therapeutic Use Exemption Committee) under the provisions of the Code. I understand that if I ever wish to revoke the right of the ISSF TUEC or WADA TUEC to obtain my health information on my behalf, I must notify my medical practitioner in writing of that fact.

Shooter's signature: Date:.....
Parent's/Guardian's signature: Date:
(if the athlete is a minor or has a disability preventing him/her to sign this form, a parent or guardian shall sign together with or on behalf of the athlete)

6. Notes:

Note 1	Shooter's ID number <i>The unique number given by ISSF</i>
Note 2	Name, qualifications and medical specialty <i>For example: Dr AB Cook, MD FRACP, Gastro-enterologist.</i>
Note 3	<i>Diagnosis: Evidence confirming the diagnosis must be attached and forwarded with this application. The medical evidence should include a comprehensive medical history and the results of all relevant examinations, laboratory investigations and imaging studies. Copies of the original reports or letters should be included when possible. Evidence should be as objective as possible in the clinical circumstances and in the case of non-demonstrable conditions independent supporting medical opinion will assist this application.</i>
Note 4	NSO Chief Medical Officer <i>Where possible the Chief Medical Officer (CMO) of the sport involved should be notified of the application to the Anti-Doping Organization. When appropriate, the application should include a statement by the Medical Officer of the Athlete's national sport governing body, attesting to the necessity of the otherwise Prohibited Substance or Prohibited Method in the treatment of the athlete.</i>
Note 5	Medication details <i>Provide details concerning all prohibited substances or methods for which approval is sought. Use generic names (INN) and specify medication dose.</i>
Note 6	<i>If a permitted medication can be used in the treatment of the athlete's medical condition, please provide clinical justification for the requested use of the prohibited medication.</i>

Incomplete Applications will be returned and will need to be resubmitted.

Please submit the completed form to the Anti-Doping Organization and keep a copy of the completed form for your records.

7. TUEC Decision *(for office use only)*

Date Received:
.....

Application Complete: **yes** **no**

Office Notes:
