### Foreword

Sport and the Olympic Movement play a key role in human development. In these times of complexity and uncertainty caused by the emergence of the COVID-19 pandemic, if we seize this opportunity, we will learn and shape our future in order to increase relevance of the Olympic Movement at the present time and future at the global level.

# Introduction

Life has given us a new test in which we have to put into practice everything we have learned, acting in accordance with the values we profess, but above all, proving our resilience to face and overcome difficulties

If there is something that defines us as an Olympic Family, it is our ability to turn crises into opportunities, to draw lessons from each one of them, to work as a team, understanding that only with discipline and effort we will achieve our goal, We are pleased to invite you to the FIRST INTERNATIONAL CONGRESS ON SPORT SCIENCE, OLYMPISM AND THE OLYMPIC MOVEMENT, an international event that will feature the participation of prominent professionals who will share their vision of sport and society after COVID-19.

If you wish to be a collaborating institution, please contact us at <u>congresos@upana.edu.gt</u> If you are interested in participating in this congress as an attendee, please sign up at <u>https://cutt.ly/dyJtmzb</u>

## OBJECTIVE

This Congress aims at analyzing the current situation from the point of view of Olympism and the Olympic Movement in order to turn this crisis into an apportunity and contribute creating a better world through sport.

"Extraordinary circumstances require extraordinary measures. This situation requires each of us to do our part (...) If we draw the correct lessons from the current situation, we can shape our future to even strengthen the relevance of our Olympic Movement in the world..."

> Dr. THOMAS BACH President International Olympic Committee
